Learn About Presidents

American Presidents are an incredible group of men from differing backgrounds and a variety of political views.

Some, like George Washington, led the nation in a time where everything was changing. Others, like Abraham Lincoln and George W. Bush, held the nation together through dark times. President Andrew Jackson was the only President to eradicate the national debt—that's impressive! President Teddy Roosevelt preserved federal lands as parks so that future generations could enjoy nature and hunting.

In your research, you can discover which President was also a Pastor and which President got married in the White House. You'll discover that one President went on to lead the Supreme Court, while another served out his life as a Congressman in the House of Representatives.

You will be impressed, amazed, saddened, and bewildered as you learn more about the lives of these amazing men.

It's so fun to research and record what you learn!

Today, we will be researching the USA's first 45 Presidents. On each page, you will find his name, presidential number, and photo. In addition, there are questions about him that you can read books and investigate online to find the answers.

Enjoy!
